#### WHY eQvet-us?

A conclusion of the EQAVET Secretariat report is that there seems to be room for improvement in supporting VET providers:

- ◆ Identify areas for improvement to quality assurance and implement quality assurance systems in line with the EQAVET recommendation;
- ◆ Introduce or develop self-evaluation systems.

#### WHAT NEEDS ADDRESSES eQvet-us?

VET providers need:

- ◆ To have an updated framework and practice set consisting in detailed documentation like: guides, self-diagnostic tools, good practices, strategies for implementation of sustainable quality assurance systems;
- ◆ Guidelines for scalable Eco skills and sustainable training and evaluation in order to determine the return of investment in VET programs, an indicator for the program effectiveness.

innovation and the exchange of  
good practices

- ◆ Field: Strategic Partnerships for vocational education and training,
- ◆ Duration: September 2014 - August 2016

### AIMS

To develop the innovative eQvet-*us* framework and practice set under the EQAVET framework;

To develop the innovative four levels extensive evaluation model for scalable Eco skills and sustainable training evaluation of trainees participating in VET programs as a tool to assess and validate the return of investment in VET programs.

### TARGET GROUPS

- ◆ Vocational Education and Training providers in each partner country and at European level;
- ◆ Policy-makers in VET;
- ◆ Consultancy organisations and/or certification bodies for quality management systems;
- ◆ VET quality teachers, professionals, experts, etc.

### RESULTS

An innovative solution, under the new EQAVET recommendations, the eQvet-*us* reference framework for sustainable development:

- ◆ eQvet-*us* framework - indicators of means to set up quality assurance systems in different fields oriented to the VET providers needs on 3 pillars of sustainable development: social, economic and environmental;
- ◆ eQvet-*us* practice set - a guide for implementing, evaluation, review and a self-diagnostic tool;
- ◆ implementation and test of eQvet-*us* framework and practice set in partner organizations;

eQvet-*us* recommendation guide that contains activities related to maintenance of the quality assurance systems implemented by VET providers: good practices, strategies to support future implementation.

An innovative eQvet-*us* peer learning evaluation method, for evaluation of trainees and VET professional programs quality, as part of the sustainable development:

- ◆ eQvet-*us* methodology for scalable Eco skills and sustainable training evaluation, that provides evaluation on four levels:
  - reaction,
  - learning,
  - behaviour,
  - result evaluation by investigating the effects of training on the business from the trainee's performance.
- Implementation and test of eQvet-*us* peer learning evaluation method;
- ◆ eQvet-*us* recommendation guide for scalable Eco skills and sustainable training evaluation.

### Multiplier events:

- ◆ National cascade pilot of eQvet-*us* framework and practice set in each partner country - a one day presentation, demonstrations and results from the implementation;
- ◆ National training seminar of eQvet-*us* methodology for scalable Eco skills and sustainable training in each partner country;
- ◆ National final conference in Romania.
